Dear Parents / Carers,

A few years ago our Federation invested in a new homework tool for Mathematics, called Mathletics. Mathletics, when used regularly, is proven to increase attainment in Mathematics. Additionally, the program has been designed to be fun and interactive. It allows the children to independently learn through the use of a virtual teacher.

The annual school rollover has now taken place so that Mathletics can now be used again. Homework will be set weekly and children who get silver or gold certificates will be awarded these in our weekly celebration Collective Worship.

Your child will have access to the Mathletics website if they have access to the internet at home through a unique username and password. The passwords will be reissued this week. Please ask your child's class teacher if you don't have one.

We recommend that you spend time looking at the program with your child to explore how Mathletics will benefit his or her learning.

We hope that you continue to enjoy using Mathletics. Please come and see me if you have any further questions.

Yours sincerely,

Sam Briston
