Dear Parent/Carers

QUESTION LEVEL ANALYSIS (QLA) RESULTS

Dear Parents and Carers,

We are writing to inform you that your child's question-level analysis (QLA) results will be sent home with them. These results provide an overview of areas where further practice or support may be beneficial.

Alongside the results, we are providing links to guidance explaining how to approach the types of questions identified. The purpose of sharing this information is to help your child understand their strengths, recognise areas for development and become more confident when tackling similar questions in the future. Reviewing the results together may also help your child to reflect on their learning and consider which strategies they could use to improve.

We encourage you to discuss the results with your child. Short, regular opportunities to practise can be particularly helpful. It is not necessary to work through every question at once; focusing on one area at a time will enable your child to make steady progress without feeling overwhelmed.

Please be assured that the QLA results are intended to support learning and inform future teaching. They provide a useful indication of areas for development, rather than a complete measure of your child's ability. We will continue to address identified needs in school and provide appropriate support as part of our ongoing teaching and assessment.

We hope that you will find the results and accompanying guidance useful. Thank you for your continued support in helping your child to develop confidence and make progress in their learning.

Yours sincerely,

Year 5/6 Team
