Learning Together for Life

Monday 2nd November 2020

Dear Parents/Carers,

Family Learning online for the Autumn Term

Many of you have previously attended Family Learning workshops over the past few years and we are hoping to run face to face Family Learning opportunities when we are able to. We will send further information regarding courses when it is available.

For this half term, Family Learning courses are running online and you can sign up to access any of the courses that are running between now and Christmas. Please see details below of the courses available to you.

If you need any further information, please don't hesitate to contact me.

Yours sincerely

Nichola Allerston
Head of School

Through a virtual learning platform our experienced tutors deliver a 1 hour interactive session to adults, working through activities and helping them understand how they can support their child's learning. They have tasks to complete with their children over the week to share at our next session. These courses are available to parents and carers across the county through our 2aspire Adult Learning website.

Our online courses are open to learners across the county and are a great way for parents, grandparents or carers who might find it difficult to get into school or a community venue, can find out how their children learn.

Our experienced tutors will work with the group for an hour online, sharing their ideas and working together. They will then have a range of ideas to work with through the week with their child to support their learning. Or if they want to upskill their own everyday maths skills there's an adult maths course - Calculations without Calculators.

For more information go to the 2aspire website
